Dr. Tramm,

A letter along with two disks were mailed to your attention last week. Please notify me if you have not received the disks by the end of this week, and I will re-send them to you. In the mean time, if you receive them between now and the end of this week, please notify me via e-mail.

Thanks,

Bret Kendrick  
Site Assessment Manager

Hi there.

Just thought I'd follow up. I believe Brent was mailing copies of the report on disc. Please confirm if I am remembering correctly.

All the best, kt

I think the best source for reports is with Bret Kendrick with the Site Assessment Section. He has done more investigation regarding the Delfasco Site and others. He can probably steer you to other reports that he has had to consider in his work.

The information I have is available at the website [www.epaosc.org/delfasco](http://www.epaosc.org/delfasco). It has the results of the passive sampling that we conducted in the neighborhood around Delfasco.

Hi Greg,

I was wondering if there is a final report or collection of data available from your work at Delfasco or other VI evaluations in Texas. I work on a variety of projects across the US and often need to supplement Texas regulation with other modeling to help my clients understand this potential concern. I am excited to see your team bringing this to Region 6. If you are ever open, perhaps we can catch a lunch to visit further on the best practices you are finding from your assessment work.

All the best, kt
